

Dear Students,
Please complete the following Problems and Practice Tests over the summer.
For best results:

- ♥ Break the work up over many sessions.
- ♥ Don't try to cram it into a day!

The purpose is to keep your brain 'math active'.
THINK about the harder problems! Give them a little time.

Answers AND work should be done on a **separate sheet** of paper and will be collected first week we are back in September. Your work will be graded as a PROJECT GRADE for the first quarter. Your BEST effort will also set you up to do well on the COOP/HSPT/TACHS test in November. Enjoy your summer and I look forward to teaching you in September!

Fondly,

Ms. G.L.

*STAR any questions you haven't been taught yet or don't understand.
